

Chocolate Candy Kisses

Candy coating
Squeeze bottle
Candy kisses mold
3 x 3 inch foil wrappers

Melt candy coating in the microwave 30 seconds at a time stirring after each 30 seconds until smooth and creamy.
Pour candy into a squeeze bottle and squirt melted candy into molds. Tap the molds on the counter to release air bubbles and to even out the candy. Place in the freezer a few minutes until candy feels cold and is cloudy looking.
Pop candy kisses out of the mold and wrap in foil.
